High-grade chemical-technical products in optimum quality

PRAMOL-CHEMIE AG has been marketing its products in the large-scale consumer market for now 40 years and has been particularly successful in recent years.

Customers include trading companies, that mostly supply the following: Building cleaners, commerce, industry, super markets, large-scale kitchens, public and private institutions, hospitals, nursing homes, caterers, hotels, restaurants and retailers.

Strategy

Professional users need products that are impressive in terms of:

- Cleaning and maintenance results
- Method of application
- Environmental characteristics
- Economy (cost in use)
- All products are subject to on-going improvement on the basis of information received from users

In our development laboratory we ensure that our products perform as required. We optimise our cleaning and care products by conducting application tests in-house and on site with selected customers. We select our raw materials and the quantities used to ensure our products do not pose a risk to the environment.

As a high percentage of goods are exported, prices must be held at levels consistent with the market. Feedback from customers using the products in practical application is also very important to us. It means we can rapidly adapt our products to new materials and methods.

Sales programme

The product range covers:

- Detergents
- Combined cleaning and maintenance products
- Sanitary area cleaners and descalers
- Strippers
- Maintenance products
- Carpet cleaners
- Disinfection and hygiene
- Special products
- POL cleaning and maintenance products
- ECO linie

as:

- Industrial cleaners
- Parquet care
- Textil hygiene
- Kitchen hygiene
- CarClean car products (manual use)
- CarWash car products (professional use)
- Concentrates
- Hand Cleaning and hygiene
- Spray fragrances and scented oils
- Product for the construction industry and for concrete
- Pads, cloths and sponges
- Dosing and application aids

Export sales

Sales

Sales are divided into «Swiss Sales» and «Export Sales». In Switzerland, distributors sometimes sell our products under their own name.

Support

We are glad to support distributors as well as users, providing advice, samples and sales materials.

Short info

Founded in 1981 and located in Bazenheid, Switzerland, PRAMOL-CHEMIE AG has built a loyal customer base in Switzerland and abroad. Focus is on manufacturing chemical-technical products for professional use in

- building cleaning
- kitchen hygiene
- textile cleaning
- car cleaning and maintenance

In particular, we have a very extensive product range for building cleaning and maintenance. Exports account for 60% of sales. We maintain both the «Pramol» brand as well as distributor's own brands.

cristallo

Industriestrasse 3 | CH-9602 Bazenheid | phone +41 (0)71 931 70 30 | fax +41 (0)71 931 44 54 | www.pramol.com

Crystal shine

Cristallo serves to **crystallise marble** and calciferous stone floors.

This chemical finish **hardens the surface of the floor.**

In spite of the permanent high shine, the surface of the floor shows a **minimum of soiling**, remains easy to care for and extremely non-slip.

Crystallisation is not a coating, but a surface finish.

Can be used on floors and surfaces made of marble and calciferous types of stone such as travertine, Solnhofen and terazzo.

	Name	Properties	pH Value	Packaging	Art. No.
	alkapast	Alkaline cleaning paste. Extracts dirt (oil, grease) from porous floor coverings. Also suitable for vertical surfaces.	12.0 –	1 kg 5 kg	13016.00199 13016.00134
	anti-pipi	Dog repellent. Protects exterior wall corners and other places preferred by dogs with an intensive natural odour that is unpleasant to dogs' noses.	6.5 –	5 litres	17590.00115
	antistatic-Zusatz	Anti-static additive to reduce the build-up of static charges in floor coverings. Is used, for example, as an additive for eco-floor fresh in maintenance cleaning. Warning: not suitable as an additive for all maintenance cleaning agents.	6.0 7.0	1 litre 10 litres	17760.00101 17760.00110
	argentol	Dip-bath for silver cleaning. A quick dip creates bright and shiny surfaces. For cutlery, jewellery, etc. Can be re-used several times.	1.0 –	5 litres	17508.00115
	azidopast	Acidic cleaning paste. Particularly suitable for vertical surfaces due to its consistency.	1.0 –	1 kg 5 kg	12520.00190 12520.00134
	Bowliclean	Cleaner with stripping effect and lubricant removal. For floor-cleaning machines (lane strippers).	7.0 7.0	10 litres	17579.00110
	classic wax dunkel, hell	Furniture and wood care. Cleans, maintains and protects wooden furniture and restores colour. Based on an old proven recipe with natural waxes. Available in light (hell) and dark (dunkel).	– – dunkel hell	250 ml 250 ml	17595.00198 17558.00198
	Cleanroom Cleaner Reinraumreiniger	Ready-to-use special cleaner for cleaning cleanrooms. Cleans thoroughly and gently. Non-foaming. Does not leave behind any streaks. Germ-free. Empirically shown to be suitable up to: cleanroom class 3 (DIN EN ISO 14644-1).	7.0 –	10 litres	17662.00110
	CM 2000	Cleaner and maintenance product for easy care of furniture, lacquered wood and synthetic surfaces. Bonds dust to the cloth. Produces a silky-matt shine. Ready to use. Fresh fragrance.	7.5 –	200 ml 10 litres	17537.00152 17537.00110

High concentrates

This interesting product format offers a lot of advantages in terms of savings on packing material and reducing warehousing volumes and transport costs. What's more, these products deliver the same results as normal concentrate products. To achieve this, a dosage of 10 ml - 20 ml per 8 litres of water is required. The easiest way to use the high concentrates is with the 1-litre or 2-litre tilted-head dispenser bottles or the 2-litre double-neck dispenser bottles.

	PET spray bottle, natural and white 	500 ml, natur, without sprayer/lid 500 ml, white, without sprayer/lid Sprayer, spray/foam Sprayer, sprayer only	75049.00158 75083.62458 77008.62400 77107.62400

	Through-flow dosing devices	Size	Art. No.
	AccuDose Provides for dosing in the range 0.3% to 25%	38301GB (1x4 litres/min.) 38331GB (1x14 litres/min.) 38741GB (4x14 litres/min.)	67025.63400 67026.63400 67027.63400
	Robust stainless steel equipment	8351GB (1x14 litres/min.) 8451GB (2x14 litres/min.)	67034.63400 67035.63400

	Filing systems	Size	Art. No.
	Filling taps for canisters	For 5 to 10 litre canisters For 20, 25, 50 litre canisters/Pour bidon de 5 à 10 litres	66003.00100 66005.00100
	Filling tap for vats and canisters with straight threads	2" vat lid with 3/4" internal thread for vat/filling tap Bottom thread for vat/filling tap 25/50 litre	77017.00100 66008.00100
	Lever pump Output rate: 350 ml per cycle	With curved spout (360° rotating axis) - Immersion tube continuously extendable to 95 cm - 2" BSP screw fitting for steel vat with internal thread - Media viscosity to 2200 mPas Adapter for filling from KS vat, blue	66011.64500 66013.00100
	PP vat pump Output rate: 300 ml per cycle	With 125 cm PVC discharge tube and tap - Immersion tube extendable to 100 cm - PP also suitable for corrosive liquids Accessories: PP Mauser 2" vat screw fitting With curved spout or tube, with tap	66010.64500 77068.64500 66012.64500
